

## WELCOME TO OUR TWO-WEEK SUMMER PROGRAM

- For students entering kindergarten through grade 12
- For those who have special needs arising from vision impairment or other challenges
- Taught by a TVI (Teacher of the Visually Impaired) with an M.S. in Special Education
- Qualifies as an Extended School Year program

## What People Say About Our Summer Program

*"This is a safe place  
with caring people."*  
—Summer Program  
student

*"You guys do it right. Here everything  
is for everyone."* —Summer Program  
student

*"I want to stay all night at Braille  
Camp."* —Summer Program student

*"My son counts the days between one  
summer program and next."* —Parent

## LOUIS BRAILLE SCHOOL

**SUMMER SCHOOL PROGRAM  
FOR CHILDREN WITH  
SPECIAL NEEDS**

**July 12 — July 23, 2010  
Monday — Friday  
10 am — 2 pm**

**ANIMALS  
THE ENVIRONMENT  
AND YOU!**

## Reading, Writing and Arithmetic

---

Drawing from the Washington State K-12 Environmental and Sustainability Learning Standards, students will receive small group and individualized instruction in core curriculum areas. Focus is on reading, writing and arithmetic, with a touch of social studies and science, all within an environmental theme.

## Skills of Everyday Living

---

Integrated throughout the day is instruction in everyday living skills that promote self-esteem and independence. Instruction is individualized and may include basic skills such as tying shoes and zipping a jacket, social skills, technology pointers, and other skills as needed.

## Dogs and Cats as Pets Wild Birds and Animals In Their Habitats

---

PAWS (Progressive Animal Welfare Society) will present two, one-hour hands-on workshops each week.

### **Week 1. Furry Friends**

Appreciating dogs and cats as companions and friends. Learn how animals talk and other fun facts. Learn how to care for a pet. Learn about service dogs and meet a guide dog. Make toys for cats that are in the PAWS shelter.

### **Week 2. Wonderful Wildlife**

Understanding wild animals and birds through sound, taste, and scent. Learn where wild animals live and how they get their food. Learn how PAWS cares for injured and orphaned wild animals. Make items that will help wild animals at the PAWS shelter re-learn how to find their own food.

## Guide Dogs for the Blind Puppies-in-Training

---

A tradition on the first day of the summer program is a visit from puppies learning to be guide dogs. Their trainers guide the children in patting and playing with the pups, walking them on a double lead, and giving them simple commands.

## Location of Summer School

Louis Braille School  
10130 Edmonds Way  
Edmonds, WA 98020
